Esmeralda Pinamang Osei

Birmingham, United Kingdom | LinkedIn | Project portfolio

Professional Summary

Registered Nurse — UK (NMC) and Texas, USA
Data Analyst combining data validation, clear reporting and stakeholder collaboration with frontline healthcare and AI evaluation experience. Documented analytical skills include SQL, Excel, Power BI and Tableau; specific tool use at Amdari is not established.

Experience

AI Training Expert January 2025 – Present
AI Focused Academy

- Review AI-generated documents, slides, and responses across multiple domains including healthcare, against defined quality criteria, identifying errors, ambiguity, and areas requiring correction.
- Evaluate AI-generated outputs for clinical accuracy, safety, and appropriateness across a range of inpatient populations and care scenarios.
- Apply annotation guidelines and scoring rubrics to support consistent judgements; identify ambiguous criteria and explain how they affect ratings.
- Compare and rank AI-generated outputs against criteria covering content quality, reasoning, writing, and instruction adherence.
- Review complex model outputs and propose corrections, addressing edge cases, ambiguity, and healthcare safety concerns.
- Provide clear, actionable written feedback with a strong focus on precision, consistency, and objective assessment.
- Follow detailed guidelines and apply evaluation criteria consistently across a high volume of work.

Data Analyst November 2025 – July 2026
Amdari Inc., United Kingdom

- Reviewed, cleaned, and validated large datasets to ensure accuracy, consistency, and integrity, supporting business decision-making outcomes.
- Collaborated with project stakeholders to understand data requirements and translate them into meaningful analyses.
- Developed clear, concise reports and visualizations to communicate findings to both technical and non-technical audiences.
- Documented methodologies, results, and recommendations with meticulous attention to detail.
- Contributed expertise to enhance data-driven decision-making processes within the customer's team.

Critical Care Nurse May 2025 – Present
University Hospitals Birmingham NHS Foundation Trust, Queen Elizabeth Hospital Birmingham

- Deliver care to critically ill patients, including clinical assessment, medication and infusion administration, and patient safety monitoring.
- Use Epic EHR to document assessments, review clinical trends, and support accurate communication and care decisions.
- Administer medications and infusions safely, maintaining accurate documentation, infection prevention, and patient dignity.
- Contribute to IT Link activities and digital staff resources, helping organize accessible critical-care information and learning materials.
- Provide expert feedback on nursing assessments and documentation practices.

Nurse Practitioner May 2022 – May 2025
Royal Devon University Healthcare NHS Foundation Trust, North Devon District Hospital

- Delivered evidence-based care in acute medicine, assessing patients, prioritizing competing needs, and escalating deterioration.
- Coordinated admissions, discharges, and transfers with clear multidisciplinary communication and accurate records.

Acute Care Nurse May 2020 – January 2022
Suntreso Government Hospital, Kumasi, Ghana

- Provided comprehensive nursing assessments, administered medications, and supported acute and chronic disease management.
- Responded to clinical emergencies and maintained safe, patient-centered care in a busy hospital.

Skills

AI Evaluation and Annotation: RLHF tasks, prompt evaluation, response ranking, human-in-the-loop review, safety and error detection, comparative response evaluation, annotation quality assurance, structured evaluation rubrics
Data Analytics: SQL, Excel, Power BI, Tableau, data validation, data cleaning, dashboard and report development
Clinical and Healthcare: clinical assessment and care planning, deterioration recognition and escalation, medication and infusion safety, Epic EHR, infection prevention, multidisciplinary teamwork, evidence-based practice

Certifications

- Mercor — Introduction to Agents, Certificate of Recognition | 11 September 2026. AI agent evaluation, rigor, calibration, and clarity.
- 10Alytics — Certificate in Data Analysis | August 2026.

Registered Nurse — UK (NMC) and Texas, USA
